

WHAT'S IN & HOT for 2019 RESUME FORMAT

Revamp your resume to increase your chances of getting your dream job.

01 Write in various format types.

Keep up with the innovative recruitment system. You may send your resume in any of these file types: .DOC file, Portable Document Format (PDF), HTML, and text type.

02 Leverage social media.

Create a professional LinkedIn profile. This serves as your digital resume with recommendations and accomplishments to help you attract your target employers.

03 Create eye-friendly sections.

For an easy-to-read resume format for 2019, divide your resume into sections. With a six-second test, your employer can easily toss away your resume; thus, format your resume well and customize your content.

04 Pass the Applicant Tracking System (ATS).

By targeting keywords tailored to the job description, you are growing your chance to land an interview. Modify your contents, tailor strong keywords, and pass the ATS.

Moreover, 2019 resume trends include graphic visuals, bullet points, and a killer summary. Follow these 2019 resume trends and you'll surely land job opportunities in a blink of an eye.
